

OSK 800

This belt has different production stages comparing with other types. It is producing with specially bended wires and these wires become kind of supports to keep loads and carry. Mostly used in freezing, cooling, washing, trying and carrying. This belt's advantages to use right drums and sprockets, it wold be faultless driven. It is also easy to replace anywhere damaged on the belt same as modular belts. This belt has widely selection area spacing.

Materiel	AISI 304-SS1,4301 / AISI 316-SS / Temperature Resist 550 °C
